2. I wish particularly to bring to your attention the letter of [redacted]. I did not consider his letter satisfactory as he has not stated that he intends to return to [redacted] and become a regular officer which was his very strongly declared intention at the beginning of this program. I have brought this matter to his attention and he is reluctant to make this statement now. I believe that you should be aware that I have made this effort and that the omission from his letter is not an oversight. Furthermore, although I can not foresee what action or decision he will take when October comes, I suspect that he may change his mind and wish to stay in this country. Whatever my suspicions, we are proceeding as though he were returning to [redacted] and he is being enrolled in a 5-months commercial course on multi-engine aircraft training (plus acting occasionally as third pilot) on or about 1 May. This is in accordance with his expressed desire at the beginning of the program and was approved by [redacted] to me.

3. I believe that you should be aware of these facts although I do not recommend that they be brought to the attention of [redacted] at this time unless he spots the omission in Tsalikis' letter in which case I think you should have ready the above explanation.
